

Investment Overview

The Partnership provides a globally diversified, integrated real estate investment solution. The Manager believes that its ability to invest in both equity and debt– and through both privately or publicly held vehicles, allows the Partnership to best capitalize on market opportunities and pricing inefficiencies.

The Manager

Hazelview is a global alternative investment manager with over \$12.2 billion¹ in assets under management. Hazelview employs a value-oriented investment philosophy and specializes in actively managed, risk-averse real estate investing, across segments and throughout the capital stock.

| Class J | -2.1% | -5.9% | 1.9% | 3.1% | 5.6% |

The Four Quadrants of Real Estate

Adding real estate to a portfolio of equities and fixed income provides diversification that can reduce risk and offers a balance of income and growth. Capital will be allocated across the four quadrants with an increased weighting given to those with the most attractive risk-adjusted return potential.

The **Partnership strives** to:

1. Optimize returns by combining the inflation-hedged benefits of real estate equity with the stable and consistent yield of real estate debt.
2. Enhance liquidity with public investments, while minimizing volatility with private investments.

The Partnership targets a distribution yield of 5%.

Investment Highlights

The Partnership's investment highlights include:

- access to private real estate with liquidity and income,
- similar targeted total returns as REITs, but with lower volatility,
- higher targeted yield than fixed income, but with similar volatility,
- ability to modify allocations to suit different market availability; and
- leveraging Hazelview's global, integrated real estate platform and extensive experience, supported by a proven track record.

Portfolio Composition

| Portfolio Allocation By Quadrant | % NAV ⁴ |
|----------------------------------|--------------------|
